

SHOOT WELLS
IN STEPHENSDeep Holes Yield Freely in
Big Producing Field
Near Breckenridge.

Breckenridge, Tex., Aug. 24.—The following is the condition of wells drilling in Stephens county:

Columbia Oil and Gas company, Butler No. 1, pumping five barrels.

Texas and Pacific Coal company, Barker No. 1, dry and abandoned at 2,340 feet.

Texas company, Sandilley No. 7, swabbing 100 barrels at 2,200 feet.

Magnolia Petroleum company, C. B. Brown No. 1, drilling at 2,245 feet, making 500 barrels of oil daily.

Texas company, Curry No. 7, shot to top at 2,150 feet, production increased to 600 barrels of oil daily.

Magnolia Petroleum company, Frost No. 1, finishing at 2,250 feet making some oil.

Texas company, Billingsley No. 1, producing 40 barrels at 2,145 feet.

Texas and Pacific Coal company, Canton No. 1, small showing of oil at 2,110 feet.

Mid-Kansas Oil and Gas company, Hill No. 1, producing 40 barrels of oil.

Texas and Pacific Coal company, McNabb No. 1, abandoned at 1,250 feet.

Samuelson Oil corporation, Thorp No. 1, making oil and water at 1,750 feet.

Mid-Kansas Oil and Gas company, Sinclair Gulf company, Coody No. 2, completed at 2,251 feet, producing 100 barrels of oil daily.

Gulf Production company, Fincher No. 1, completed at 2,211 feet, making 10 barrels of oil daily.

Gulf Production company, Fincher No. 2, completed at 2,256 feet, producing 500 barrels of oil.

Snowden Brothers, Ashers No. 1, drilling at 2,000 feet with a showing of oil and gas.

Sinclair Gulf company, Coody No. 1, completed at 2,250 feet, making 250 barrels after shot.

Coody Oil and Gas company, Long No. 1, hole full of oil, drilling at 2,250 feet.

Oklahoma Production and Penneck Oil Co., Refining company, Walker No. 1, drilling at 2,200 feet, hole filled with oil.

Weimer et al., Boles No. 1, pumping 10 barrels.

Gulf Production company, Dulaney No. 1, completed, making 175 barrels.

Texas company, H. P. Brown No. 1, pumping 25 barrels.

Texas company, Pierce No. 2, hole full of oil and showing gas at 2,200 feet.

Mid-Kansas Oil and Gas company, Jackson No. 1, shot, flowing 200 barrels, cleaning out at 2,275 feet.

Texas company, Lauderdale No. 1, drilling at 2,210 feet, making 500 barrels of oil.

FIND NEW POOL
ABOVE RANGERHupp Well Strikes Oil in
Black Lime Northwest of
Ballentine Strike.

Burner, Tex., Aug. 24.—The completion of the Potot No. 4 of Hupp et al., extends the Ranger oil field a mile farther to the northwest and promises to connect the field later with the Stephens county field. The new producer is situated a mile northwest of the Perkins-Ballentine-Turkey territory and is making 500 barrels of oil from the black lime at a depth of 2,242 feet. This well is in a direct line with the Parrack well of the States Oil corporation and the south end of the field below Burner. Operators are sure in their belief that it is only a matter of time before the two fields are connected by a rich pool.

Three months ago this same concern extended the northward territory with their Perkins completion. When oil expected to be attracted, Reed, Hupp and Duff ventured into the unknown region.

It is expected that the production of the new well will increase with deeper penetration as was the case in the other large wells of the field. The well is drilling at 2,430 feet.

Westheimer et al. have a pumpjack on the other large wells of the field from the 2,370 foot level. Three-fourths of the production of this well is water.

The Prairie Oil and Gas company has a well making 100 barrels of oil daily in its E. Langford No. 1, which struck the pay sand at 2,370 feet.

W. E. Boer No. 1 and a of the Magnolia Petroleum company are on the pump and making around 200 barrels of oil daily. Magnolia Petroleum company's No. 1 is the only well on this tract that came in with a flow, all others have come in with the aid of the pump. The No. 1 made a production of 2,200 barrels.

The Sinclair Gulf company's E. P. Middletholm is at a depth of 2,475 feet. From the black lime this well produced 250 barrels per day, but this flow has stopped. Wednesday the well was standing with its hole half full of oil, now it is empty. The drillers are unable to say just what the trouble is, but it is generally believed that the oil is flowing into crevices above the producing line and a considerable distance below the surface of the ground.

In the south end of the Stephens county field the C. C. Allman No. 1 of the Phillips Petroleum company has a showing of oil at 1,470 feet. The drillers are setting the six and five-eighths inch casing at 2,320 feet on top of the lime.

MAKE BIG PLAY
IN NEW FIELDMany Tests Go Down in
Search of Extension of
Waggoner Field.

Vernon, Tex., Aug. 24.—Believing that an extension may be found to the Waggoner pool in the vicinity of the Red river and the Pecos river, many operators are planning to drill in that territory. Local promoters have filed leases on the Katherine Waggoner farm, which lies between the forks of the Pecos river. Near by a test is to be made on the Luther Webb farm. Near Doane two tests will be sunk on the Red river, on the McCaleb farm. West of this the Neal Hamilton company is making a test. The Waggoner oil company will drill near Odell.

Drilling direction one can see drilling material on new location sites. Much interest is being excited by local as well as foreign interest. Much shouting for favorable location sites is being done throughout the entire vicinity and local brokerage firms are busy supplying many calls.

A 2,500 foot well is to be sunk on the Luther Webb farm, section 48, block 12, T. 23N., R. 10E., S. 10E. This company is backed by a \$25,000 capital. The drilling contract has been given to Green and Staley. Vernon people have let a contract for a test in the southeast quarter of section 48, block 14, one and a half miles north of the Texas company's gusher on the Catherine property.

The Texas Crescent Oil company is drilling on its well in section 24, block 12.

Vassey-Oddell Oil company's test on the Vassey farm is rigging up.

Guyver-Isler Oil company, Guyver No. 1, subdivision 12, Waggoner Colony lands, drilling.

Gulf Production company, No. 1, Waggoner, section 12, block 14, drilling.

West Vernon Oil company, No. 1, Hurst, derrick and timber material on drilling site.

Pope Oil company, No. 1, Rasmussen, section 42, block 12, drilling at 1,800 feet.

Crescent Cave Oil company, J. P. Stacker farm, section 12, block 12, machinery and derrick at location.

Home Oil company, leases on 250-acre tract on the Waggoner ranch, drilling on the Wharton company No. 1, No. 2, location; No. 1 Paul Waggoner drilling.

Waggoner Oil and Development company's No. 1, Levee, section 24, block 14, spudding in.

W. G. Burton, lease of 50-acre tract on the Wharton ranch, drilling in section 21, block 2.

Moonsline Hill, No. 1 Cobb, setting casing at 1,800 feet, producing complete on subdivision 16, Waggoner colony lands.

Magnolia Petroleum company, Piper lease, No. 29, piped, drilling.

Francis Sumner lease, No. 140, drilling, No. 21, drilling.

Kansas City Petroleum company, No. 1, J. P. King, derrick up.

Texas company, Waggoner 125, rigging up.

Minnesota Southern Oil company, Collinsworth survey, drilling.

Staley Farm Oil company, M. S. Tatum, survey, location.

Harrington and Robertson, No. 1, McCaleb, section 42, block 15, drilling at 700 feet.

Texas Crescent Oil company, drilling in block 12, section 24.

Staley et al., Willis Vaughn farm, rigging up.

Aetna Oil company, No. 1 Gosh, subdivision 22, Waggoner Colony, drilling at 700 feet.

Furnam & Sutton, W. T. Waggoner ranch of 2,500 acres lease, drilling.

Neal Hamilton, No. 1 Neal, drilling.

American Eagle Oil and Gas company, Kelly, section 24, block 12, rigging up.

Acet Oil company, section 25, block 12, shut down.

SUES THE FIRM
FOR \$1,000,000Dallas Concern Wants Big
Sum for Alleged Loss
of 15 Acre Tract.

Dallas, Tex., Aug. 24.—In the 41st district court of Dallas county, the Security Mortgage and Investment company of Dallas has filed suit for \$1,000,000 damages against the Cattleman's Hogg Creek Oil company and other defendants. This is the largest damage sum asked in any case ever filed here.

The Dallas company files suit on the basis of a contract alleged to have been entered into by them through Allen, Stiemmons, and Fortner, also made defendants, by which the Security Mortgage and Investment company claims to have purchased a 15 acre tract in Eastland county, owned by the Cattleman's Hogg Creek Oil company, including a 500 barrel well on the land together with the drilling derricks and other supplies for the tract. The suit claims that the plaintiff deposited \$150,000 in a local bank, as required by the contract, and asked to meet the other provisions of the contract, but the defendant failed to deliver the title to the land and ignored the plaintiff's claim. It is asked that the defendant be ordered to deliver the title to the land and to pay the plaintiff's claim.

Since July 7, it is alleged, the Magnolia Petroleum company has taken the 15 acre tract and the plaintiff has been unable to get the land back. The plaintiff claims that the defendant has been using the land for a long time and has been producing oil from it. The plaintiff claims that the defendant has been using the land for a long time and has been producing oil from it.

Damage in the sum of \$1,000,000 is asked by the plaintiff, at the cost that it is not entitled to have the contract specifically performed, first against the oil company and second against Allen, Stiemmons, and Fortner, the latter were not empowered to make the contract.

PULLMAN OIL CO.
REACHES THE OILTelegram Says 3000 Feet
Standing in Casing; to Be
Completed at Once.

The Pullman Oil & Refining company had telegraphic advice Monday that its No. 1 E. M. Daniel well on the Desdemona townsite had been drilled to the lime and was standing in 3000 feet of oil. It is expected that the well will be completed at once and all indications are that it will be one of the big wells of that field.

The Desdemona field is a consistent location for big wells, among which are the Echols, Warren, Wagner, C. I. Terrell and Riley. The Riley well is located on the same tract as the Pullman No. 1, E. M. Daniel, at a distance of some 100 feet. It is said to be even a larger well than the Warren Rancher, which was cased with an initial production of from 10,000 to 12,000 barrels and which is reported to have indications of a settled production of as much as 8000 thousand barrels of oil a day.

The Pullman Oil & Refining company is operating on a large scale and is now drilling its second well, which was cased with an initial production of from 10,000 to 12,000 barrels and which is reported to have indications of a settled production of as much as 8000 thousand barrels of oil a day.

EAGLE COMPANY
DERRICK IS UPCapt. Dawson Makes Trip
to Holdings in Tularosa Basin.

The Eagle Oil company, which has leased more than 10,000 acres in the Tularosa basin, about 41 miles from El Paso, has its first derrick completed to drilling. The derrick was accepted Monday by Capt. J. G. Dawson, president of the company. Capt. Dawson is an oil man with years of experience in the best fields of this country and of Mexico. He says he has the highest hopes for prospects near El Paso.

ATLANTA STAFF NEWS
WRITER VISITING THE CITYJames A. Holman, staff
correspondent for the Atlanta Constitution
at Washington, D. C., is in El
Paso for his paper, to see what he
can get on the Mexican situation.
He will be here for several days. He
brings a letter of introduction from
L. J. Trotter, formerly of El Paso,
who writes that he expects to be
back here about September 15. Mr.
Trotter had to leave here on account
of the death of Mrs. Trotter.TRAINS RESUME SCHEDULE
AFTER WRECK NEAR MARFA

Regular train service on the G. H. & A. was resumed Monday following the clearing up of the freight wreck west of Marfa, Sunday afternoon, when 17 cars went into the ditch. The wreck was caused by a broken rail, according to information received at El Paso railroad office. The westbound Street limited train was delayed 11 hours as a result of the accident.

POLE BREAKS WOMAN HURT

Mrs. W. Grubbs, of 127 Gladbeck place, was cut on the head Monday afternoon when she fell backward as one of the poles in a street car broke. She was treated at the emergency hospital by police surgeon John Hardy.

E. C. WADE COMING HOME

E. C. Wade, Jr., who was with the Y. M. C. A. in the far east during the war, will return to his law practice here, according to a telegram received from Hong-Kong.

RETURNS TO POST

America's consul Lloyd Burlingham, stationed at Soledad, Mexico, has returned to his post. Mr. Burlingham has been in America two months, during which he visited his wife here.

BUY OCEAN \$2.25

Latest report is that Ocean is drilling at 3320 feet, making
lots of gas and some oil, 100 feet yet to go, building flow tanks
and connecting up pipe lines. We have been picking up this
stock and can offer a limited amount at above price. We look
for this stock to go to \$5.00 and possibly \$10.00 in ten days.

Buy Silver Cycle \$2.00

Why don't Silver Cycle go up with a 2000 barrel well? It cer-
tainly will. You can't keep it down; their earnings from this
well alone should be \$100,000.00 per month at present production
and price of oil. The only reason it is not selling for more is
simply because someone has flooded the market taking short
profits. We look for higher prices in the next ten days.

Buy Ranger Central \$1.65

TWIN SISTER to the Ocean, every bit as good. Only ten days
behind Ocean, now drilling at 2200 feet, making hole fast.
If Ranger Oil and Gas, 400 feet from Ocean, is selling at \$4.50
to \$5.00 per share, same capitalization and only two and a frac-
tion acres, why won't Ocean and Ranger Central be worth five
times as much with ten acres?
These offerings are distinctly subject to prior sale or withdrawal.
Will you buy now or pay more?

Now Buy In a REAL Oil Company

It isn't too late to make some BIG money in Texas OIL—in fact, NOW is the time to INVEST—
now is the time to get in on the BIG profits. For now the people have become so familiar with the oper-
ations of the PROMOTERS—the schemers, if you please—that to find a market for an oil security,
one must offer a SAFE, LEGITIMATE, BUSINESS-LIKE proposition.

WESTON-KRUPP OIL INTEREST

CAPITAL \$300,000.

Offers investors an opportunity to hedge on all POOR speculations. This company—with holdings
JAM-UP to the most famous producers in the NATION, and managed by the BEST KNOWN oil
OPERATORS in the STATE, is finding a ready market for their stock.The holdings of the Weston-Krupp Interest consist of more than a THOUSAND acres of OIL LAND. Their No. 1 tract in
the Ranger District is only 1800 feet northwest of the famous PERKINS gusher; a quarter of a mile northeast of the big POTEET
well and just southeast of the BUTLER well, making 500 barrels on the top of the sand. (The Butler well when completed
should make from 5000 to 10,000 barrels). Ocean Oil & Refining Company, only a few feet due west.In Runtell county, Texas, where there are
NINETEEN holes being drilled by such
companies as the Gulf, Standard Oil, Sin-
clair—and where geologists proclaim the
greatest oil field in the state will be discovered,
the WESTON-KRUPP INTER-
EST own ONE THOUSAND well-
chosen acres, on which they are now drilling
night and day.Also control acreage in Northwest Bur-
kett and Desdemona, surrounded by the
biggest producers in these fields.Here's the Coupon
